DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23 and 26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tarver.

Tarver discloses in figures 1-7 a restraint apparatus comprising a first cuff module 20, a second cuff module 20', a cuff interconnect 12, a first connector 60, a second connector (another 60 on the other end of the apparatus), a first releasable connector 46 and at least one tensioning device (16,18).

Allowable Subject Matter

Claims 24-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-22 and 27-31 are allowed.

Conclusion

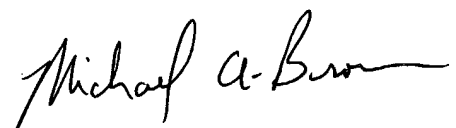

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gaylord, Terrell '785 and Terrell '993 each disclose a restraint apparatus. Although each of these references is pertinent prior art, neither was used to reject any claims, in the first office action.
